1. Introduction and Overview

College National Finals Rodeo hosts the nation's top collegiate outdoor rodeo competitors and functions as a primary visitor attraction for the City of Casper, Wyoming. In June 2018, the event attracted approximately 6,772 attendees, placing it among the largest attractions in Natrona County. Cinch Style Show, Cowboy Church Service, softball and golf tournaments, a Special Olympics, pancake breakfasts, and entertainment are very popular and attract a substantial number of visitors from outside the County in addition to an audience of Natrona County residents.

Based on the results of a survey of College National Finals Rodeo attendees, conducted during June–July 2018, this report provides the economic benefits generated for Casper and Natrona County. In addition, this report describes characteristics for all attendees, including Natrona County residents.

Before proceeding it is useful to clarify a couple of terms that appear throughout this discussion:

Attendee refers to all persons who attended College National Finals Rodeo.

Visitor refers specifically to those persons who reside outside of Natrona County and attended the event.

Data Collection and Sample

An on-line survey of College National Finals Rodeo attendees was conducted in order to gather data on attendee expenditures, location of residence, and other factors for which there are no other reliable data sources.

Attendance

College National Finals Rodeo attendance totaled about 6,772 people, as shown in Table 1-1. This estimate is based on ticket sales for the two most popular events by ticket sales — Championship Round on Saturday Night and Thursday Night Performance — less the number of persons who attended both (based on College National Finals Rodeo survey). The portion attributed to overnight and day travel, as well as average length of stay and party size was also based on College National Finals Rodeo survey data.

Economic Impacts

College National Finals Rodeo attendees made a wide variety of purchases for food and beverages, lodging, recreation, transportation and retail items. The purchases made by attendees generate additional economic activity within Casper and Natrona County and help support the local businesses.

Economic benefits included in the study consist of expenditures, payroll and associated tax revenue generated by College National Finals Rodeo attendees. Spending by Natrona County residents is included because it is reflective of spending in addition to residents' regular expenditures. These detailed findings are described in the third section of this report.

2. Attendee and Visitor Profile

This section provides survey findings useful for planning, program development, and marketing purposes, and includes data related to:

- Activity and Event Participation
- Previous Visitation and Trip Motivation
- Overnight vs. Day Travel and Nights in Casper
- Travel Party Companions and Accommodation Type
- Visits to Attractions, Other Communities, and Places
- Trip Planning and Demographics

3. Economic Impacts

College National Finals Rodeo generates economic benefits for Casper and Natrona County to the extent that its attractions and events draw visitors who would otherwise not travel to Casper and Natrona County. The focus of this analysis is on the expenditures made by all attendees and the associated employment, earnings, and tax receipts that they generate.

Expenditures include purchases of food, lodging, transportation, event tickets and retail items made in Casper and Natrona County. Respondents were instructed to report the expenditures made on the trip during which they attended College National Finals Rodeo.

Methodology Overview

This analysis draws on data collected from the survey of those who attended College National Finals Rodeo and on attendance data derived from ticket sales. In addition, the study makes use of other economic data on Natrona County that are available from statewide travel impact studies conducted for Wyoming Office of Tourism by Dean Runyan Associates. The primary emphasis is on expenditures, payroll and tax receipts that are directly attributable to attendees who attended College National Finals Rodeo. These expenditures represent purchases made in Natrona County while on a trip during which attendees attended College National Finals Rodeo.

Direct Economic Impacts

College National Finals Rodeo generated \$1.9 million in direct expenditures made in Casper by event attendees and their travel parties. Table 3-1 shows a breakout of attendee spending by Type of Travel Accommodation *and* Spending by Commodity. Visitors who stayed overnight in a Hotel, Motel, Lodge, or B&B accounted for \$1.2 million of total expenditures (66%). Visitors staying at the Fairgrounds spent about \$240,000, while visitors spending the night with friends and relatives (private homes) spent about \$200,000. These direct expenditures supported approximately 20 both full- and part-time jobs, which generated nearly \$400,000 in earnings (wage and salary disbursements).

State and local tax receipts generated by retail purchases, lodging, food and beverage, and gasoline purchases amounted to nearly \$81,000. Local tax receipts consist of lodging, county general purpose and option tax, and state sales taxes returned to the County (30 percent). State sales taxes include gasoline taxes attributable to travel expenditures and the state share of the state sales tax (69 percent). These state and local tax receipts are calculated based on attendee expenditure amounts discussed previously.

Secondary Impacts

College National Finals Rodeo will generate additional travel spending, in the form of business to business transactions, within Casper and Natrona County. Portions of these receipts will then be spent locally for labor and supplies. Employees of these businesses will, in turn, spend a portion of their earnings on local goods and services. This re-spending creates secondary (indirect and induced) impacts.

To summarize:

- **Direct** impacts represent the spending, employment, and earnings attributable to travel expenditures made directly by the participants of College National Finals Rodeo.
- **Secondary (Indirect)** impacts represent the employment and earnings associated with industries that supply goods and services to the direct businesses (i.e., those that receive money directly).
- **Secondary (Induced)** impacts represent the employment and earnings that result from purchases for food, housing, transportation, recreation, and other goods and services made by travel industry employees, and the employees of the indirectly affected industries.

Table 3-2 below shows how the economic impacts for College National Finals Rodeo are distributed among the primary visitor-related commodities, as well as the magnitude of secondary impacts estimated to occur within Natrona County.

ii. Mr. Baxter stated that the contractor is in the process of coating the internal walls and roof of the Airport Elevated Water Storage Tank. Mr. Baxter stated that the coating will take approximately three to four weeks to complete.

Mr. Baxter stated that the finishing work on the tank will start in mid-

September. The tank should be finished and put in service by late October.

b. There was no Other Old Business.

8. In New Business:

a. Mr. Martin stated that the Board entered into an agreement with HDR Engineering to update the Wellhead Protection Plan and the Source Water Protection Plan combined into one document. Mr. Martin stated that Mr. Steve Quail and Mr. Brandon Gebhart are in attendance today to review the updated plan with the Board. Mr. Martin turned the time over to Mr. Quail.

Mr. Quail stated that Mr. Doug Haney is on the phone and will be presenting the Source Water Protection Plan to the Board.

Mr. Haney stated that this is the same presentation that was given to the Groundwater Guardians last week.

Mr. Haney stated that in 1986 the Safe Drinking Water Act required a Wellhead Protection Plan, which was a community based plan with education and buy-in on how to protect the groundwater.

Mr. Haney stated that in 1996 the Safe Drinking Water Act included the addition of a Source Water Protection Plan.

Mr. Haney stated that the RWS Source Water Protection Plan included all the requirements: Formation of a Steering Committee, Overview of the CWRWS Water System, Delineation of Wellhead and Source Water Protection Areas and Zones, Compile an Inventory of Known and Potential Contaminants, Susceptibility Determination of Source Water Protection Areas, Develop and Implement a Contaminant Source Management Plan, and Develop a Contingency Plan.

Mr. Haney stated that the Source Water Protection Zones are as follows:

Zone 1: Accident Prevention or Sanitary Protection Zone – Groundwater Source – 100-ft radius for each well.

Zone 2: Attenuation Zone – Groundwater Source – 2-year time of travel to each well. Surface Water Source – 1000-ft buffer zone on each side of a perennial stream for 15-miles upstream.

Zone 3: Remedial Action Zone – Groundwater Source – 5-year time of travel to each well. Surface Water Source – Entire North Platte River watershed.

Mr. Haney stated that data from previous reports and new data were used to identify potential contaminants. Mr. Haney stated that there are two types of contaminant sources: underground storage tanks, and septic systems land use for non-point source contaminants. Mr. Haney stated that the septic system area has monitoring wells that are tested.

Mr. Haney stated that the Susceptibility Determination is based on the following: Well Intake Susceptibility Rating – Well or Intake Integrity Score and Water Source Sensitivity; Sensitivity of Land Area through which Potential Contaminants reach a Well or Intake; Nature of the Potential Contaminant.

Mr. Haney stated that septic system and underground storage are the greatest risk for contamination and stated that best management practices and public participation are needed.

Mr. Haney stated that Non-Regulatory Management Strategies include public participation meetings, zoning changes, water conservation programs, training, household hazardous waste collection programs, and public education programs.

Mr. Haney stated that Regulatory Management Strategies include subdivision regulations and codes, land use agreements, site plan review, purchase of property and development rights, and inspectors at construction and drilling sites.

Mr. Haney stated that the development and implementation of accepted Best Management Practices requires buy-in from stakeholders and from entities that have the potential to impact source water quality and could include zoning and ordinance measures, physical barriers, and public education. Mr. Haney stated that the wellfield has a fence on the land side, but not on the river side.

Mr. Haney stated that the underground storage tanks will need to be monitored. He stated that there is no real trend for the prior sampling of the monitoring wells; the contamination is not increasing, but there are some nitrate spikes.

Mr. Haney stated that other potential contamination sources are underground storage tank drilling companies, and septic tanks from trailer parks.

Mr. Haney stated that Emergency Strategies are being worked on now, which include mentioning the wellhead protection zones in the annual Consumer Confidence Report.

Mr. Haney stated that some of the best management considerations include expanding the wellhead protection buffer zones, gravel pit mining regulations, storm water pollution prevention plans, and hazardous release communications.

Mr. Martin stated that when the report is finalized, it will be sent out to the Board. Mr. Quail stated that there are just a few things that need updated, but the report

will be finalized soon.

Chairman King stated that there are a lot of septic systems in the area. Mr. Quail stated that there is not a lot of contaminate migration from the septic systems as the river infiltration of the wells is diluting any contamination.

- b. Mr. Martin turned the time over to Mr. Baxter to discuss Change Order No. 2 with Landmark Structures I, LP for the Airport Elevated Water Storage Tank Project.

Mr. Baxter stated that this change order is to add six steel protective guard posts filled with concrete around the perimeter of the new tank drain splash box. Mr. Baxter stated that these bollards were an oversight of the engineer and not included in the specifications, but are necessary to prevent any vehicles or equipment from damaging the concrete structure or the metal grate covering the box. Mr. Baxter stated that the total cost for all six posts is \$4,805. Mr. Baxter stated that this change order would be paid from contingency funds, reducing the contingency amount to \$140,864.15.

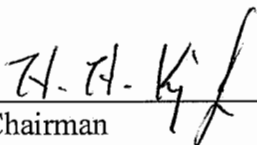

Mr. Baxter stated that the WWDO has approved this change order.

Chairman King asked if the cost of the change order was based on a low bid. Mr. Baxter stated that this was a quote from a subcontractor.

A motion was made by Treasurer Lawson and seconded by Board Member Waters to approve Change Order No. 2 with Landmark Structures I, LP for the Airport Elevated Water Storage Tank Project in the amount of \$4,805. Motion put and carried.

- c. Board Member Johnson was not in attendance at the meeting and was unable to sign his annual banking letter.
 - d. There was no Other New Business.
9. In the Chairman's Report, Chairman King stated that the next regular meeting will be held on September 18, 2018.

A motion was made by Board Member Waters and seconded by Board Member Walsh to adjourn the meeting at 12:28 p.m. Motion put and carried.

**HOUSING AND URBAN DEVELOPMENT (HUD)
EMERGENCY SOLUTIONS PROGRAM (ESG)
FINAL MATCHING FUNDS REPORT
DUE THIRTY (30) DAYS FROM END DATE OF CONTRACT**

AGENCY:		CONTRACT #:	
----------------	--	--------------------	--

Reference: Federal Register Vol. 76 No. 233 dated 5 Dec 2011

Matching Requirement: The recipient must make matching contributions to supplement the recipient's ESG program in an amount that equals the amount of ESG funds provided by HUD. If the recipient is a State, the first \$100,000 of the fiscal year grant is not required to be matched. Matching contributions may be obtained from any source, including any Federal source other than the ESG program, as well as state, local, and private sources. However, the following requirements apply to matching contributions from a Federal source of funds: (1) The recipient must ensure the laws governing any funds to be used as matching contributions do not prohibit those funds from being used to match Emergency Solutions Grant (ESG) funds. (2) If ESG funds are used to satisfy the matching requirements of another Federal program, then funding from that program may not be used to satisfy the matching requirements under this section.

Eligible types of matching contributions: The matching requirement may be met by one or both of the following:
(1) Cash contributions. Cash expended for allowable costs, as defined in OMB Circulars A-87 (2 CFR part 225) and A-122 (2 CFR part 230), of the recipient or subrecipient.

(2) Noncash contributions (in-kind). The value of any real property, equipment, goods, or services contributed to the recipient's or subrecipients ESG program, provided that if the recipient or subrecipient had to pay for them with grant funds, the costs would have been allowable. Noncash contributions may also include the purchase value of any donated building.

Calculating the amount of noncash contributions: To determine the value of any donated material or building, or of any lease, the recipient must use a method reasonably calculated to establish the fair market value. Services provided by individuals must be valued at rates consistent with those ordinarily paid for similar work in the recipient's or subrecipient's organization. If the recipient or subrecipient does not have employees performing similar work, the rates must be consistent with those ordinarily paid by other employers for similar work in the same labor market.

Some noncash contributions are real property, equipment, goods, or services that, if the recipient or subrecipient had to pay for them with grant funds, the payments would have been indirect costs. Matching credit for these contributions must be given only if the recipient or subrecipient has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of those contributions.

Costs paid by program income. Costs paid by program income shall count toward meeting the recipient's matching requirements, provided the costs are eligible ESG costs that supplement the recipient's ESG program.

Recordkeeping: The recipient must keep records of the source and use of contributions made to satisfy the matching requirement in § 576.201. The records must indicate the particular fiscal year grant for which each matching contribution is counted. The records must show how the value placed on third-party, noncash contributions was derived. To the extent feasible, volunteer services must be supported by the same methods that the organization uses to support the allocation of regular personnel costs.

*****Matching is on a statewide basis; document as much match as possible.*****

**HOUSING AND URBAN DEVELOPMENT (HUD)
EMERGENCY SOLUTIONS PROGRAM (ESG)
FINAL MATCHING FUNDS REPORT
DUE THIRTY (30) DAYS FROM END DATE OF CONTRACT**

AGENCY:		CONTRACT #:	
----------------	--	--------------------	--

Reference: Federal Register Vol. 76 No. 233 dated 5 Dec 2011

Matching Requirement: The recipient must make matching contributions to supplement the recipient's ESG program in an amount that equals the amount of ESG funds provided by HUD. If the recipient is a State, the first \$100,000 of the fiscal year grant is not required to be matched. Matching contributions may be obtained from any source, including any Federal source other than the ESG program, as well as state, local, and private sources. However, the following requirements apply to matching contributions from a Federal source of funds: (1) The recipient must ensure the laws governing any funds to be used as matching contributions do not prohibit those funds from being used to match Emergency Solutions Grant (ESG) funds. (2) If ESG funds are used to satisfy the matching requirements of another Federal program, then funding from that program may not be used to satisfy the matching requirements under this section.

Eligible types of matching contributions: The matching requirement may be met by one or both of the following:
(1) Cash contributions. Cash expended for allowable costs, as defined in OMB Circulars A-87 (2 CFR part 225) and A-122 (2 CFR part 230), of the recipient or subrecipient.

(2) Noncash contributions (in-kind). The value of any real property, equipment, goods, or services contributed to the recipient's or subrecipients ESG program, provided that if the recipient or subrecipient had to pay for them with grant funds, the costs would have been allowable. Noncash contributions may also include the purchase value of any donated building.

Calculating the amount of noncash contributions: To determine the value of any donated material or building, or of any lease, the recipient must use a method reasonably calculated to establish the fair market value. Services provided by individuals must be valued at rates consistent with those ordinarily paid for similar work in the recipient's or subrecipient's organization. If the recipient or subrecipient does not have employees performing similar work, the rates must be consistent with those ordinarily paid by other employers for similar work in the same labor market.

Some noncash contributions are real property, equipment, goods, or services that, if the recipient or subrecipient had to pay for them with grant funds, the payments would have been indirect costs. Matching credit for these contributions must be given only if the recipient or subrecipient has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of those contributions.

Costs paid by program income. Costs paid by program income shall count toward meeting the recipient's matching requirements, provided the costs are eligible ESG costs that supplement the recipient's ESG program.

Recordkeeping: The recipient must keep records of the source and use of contributions made to satisfy the matching requirement in § 576.201. The records must indicate the particular fiscal year grant for which each matching contribution is counted. The records must show how the value placed on third-party, noncash contributions was derived. To the extent feasible, volunteer services must be supported by the same methods that the organization uses to support the allocation of regular personnel costs.

*****Matching is on a statewide basis; document as much match as possible.*****

2B. Experience of Applicant, Subrecipient(s), and Other Partners

1. Describe the experience of the applicant and potential subrecipients (if any), in effectively utilizing federal funds and performing the activities proposed in the application, given funding and time limitations.

Community Action Partnership of Natrona County has over twenty years of experience managing federal grants. The agency began partnering with federal granting organizations with the Community Service Block Grant, which funds emergency rental assistance, job skill training, and life skill education. We then partnered with HRSA to open the 12th Street Clinic/Healthcare for the Homeless (HCH) fifteen years ago, and opened HUD funded transitional housing in 2003. Throughout our history of operating federal grants we have consistently used funding in a timely manner and completed reports when due.

In addition to our history of successful federal grant fund management, we have a strong history of successfully operating the programs funded. We regularly meet or exceed the outcomes we have established, as well as those required by the funders. Our programs include primary medical care, permanent supportive housing, emergency assistance, job skill development, budgeting skills, interview skills, and basic life skills. We have recently added a SOAR certified client advocate, Registered Nurse who assists eligible individuals who are disabled apply for disability income and Medicaid.

2. Describe the experience of the applicant and potential subrecipients (if any) in leveraging other Federal, State, local, and private sector funds.

Community Action Partnership of Natrona County has been partnering with the City of Casper and Natrona County Board of County Commissioners for thirty years. We are committed to leveraging local funding sources in order to support human service programming in our community, which includes housing assistance to the homeless. During the last fiscal year, we were able to leverage \$65,000 of City and County funding, as well as state Emergency Shelter Grant funding and Community Service Block Grant funding. We also are able to leverage HRSA funding through the Health Center Cluster program, which provides primary medical care to homeless individuals and families.

3. Describe the basic organization and management structure of the applicant and subrecipients (if any). Include evidence of internal and external coordination and an adequate financial accounting system.

CAPNC is governed by a nine member board of directors which oversees the Executive Director. The E.D. is responsible for overseeing all other agency staff. Key staff includes an Operations Manager. We have an annual financial audit, which includes an A-133 each year. In order to ensure we have a clear separation of duties regarding financial transactions, we hired a financial

coordinator who is responsible for overseeing all financial transactions, in order to strengthen our financial accountability and deepen the separation of duties. In order to ensure our programming is meeting the needs of the community, we participate in quarterly homeless collaborative that is attended by 10-15 agency representatives who serve the low income and homeless.

4a. Are there any unresolved monitoring or audit findings for any HUD grants(including ESG) operated by the applicant or potential subrecipients (if any)? No

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

Community Action Partnership of Natrona County (CAPNC) has secured 18 units to operate the Housing First Model for individuals and families experiencing chronic homelessness. CAPNC will identify potential clients through outreach and engagement with referrals from partnering community agencies. Referrals are commonly provided by Wyoming Rescue Mission, Central Wyoming Counseling Center and CAPNC's Healthcare for the Homeless. A CAPNC employee, who is a licensed Social worker will build trust in a neutral setting with people experiencing homelessness, utilizing outreach evidenced based practices. Continued face to face contact with the Case Manager will eventually build trust and provide the opportunity to successfully link people to appropriate housing. There is no expectation of sobriety, treatment, compliance or mandated services. We use a client centered approach and participants are not commanded to participate in psychiatric services, attend life skills training or parenting classes or address any other medical issues. The only expectations of Housing First Participants are to meet weekly in their home with their respective case manager, pay their proportionate share of rent and to comply with a standard lease agreement, essentially agreeing to "be a good neighbor". Units are centrally located to provide ease of access to transportation, medical services, food pantries, parks, churches and social supports. A trip to the local food pantries is scheduled weekly for program participants. Continuing education (GED/Hi-SET, secondary education) is strongly encouraged and supported. A community college and four-year college are located within walking distance of the apartments and provides numerous educational and vocational training programs. Transportation is available utilizing CAPNC's van for medical and mental health appointments at CAPNC's Healthcare for the Homeless (HCH-a federally qualified health center) and other medically necessary appointments. Additional rides may be given to job interviews, school and accessing food and medical prescriptions. Another service provided by HCH is the enrollment in the Patient Assistance Program, which provides prescriptions for patients at an extremely reduced cost of \$2 per prescription. A SOAR Certified Advocate is available to assist clients with mainstream services such as filing for SSI/SSDI Benefits and applying for Medicare/Medicaid. Lastly, participants are provided opportunities to integrate into the larger community through volunteering. Volunteering is known to provide a higher sense of purpose and create a greater sense of community engagement.

2. For each primary project location or structure in the project, enter the number of days from the execution of the grant agreement that each of the following milestones will occur as related to CoC Program funds requested in this project application. If a milestone is not applicable, leave the associated fields blank. If the project has only one location or structure, or no structures, complete only column A. If multiple structures, complete one column for each structure.

Note: To expend funds within statutorily required deadlines, project applicants must be able to begin assistance within 12 months of conditional award. The one exception is for applicants who are conditionally awarded sponsor-based and project-based rental assistance. These conditional award recipients will have 24 months to execute a grant agreement; however, HUD encourages all recipients conditionally awarded funds to begin assistance within 12 months. The estimated schedule should reflect these statutorily required deadlines.

4A. Supportive Services for Participants

1. Applicants requesting funds to provide housing or services to children and youth, with or without families, must establish policies and practices that are consistent with and do not restrict the exercise of rights provided by subtitle B of title VII of the McKinney-Vento Act (42 U.S.C. 11431, et seq.), and other laws (e.g. Head Start, part C of the Individuals with Disabilities Education Act) relating to the provision of educational and related services to individuals and families experiencing homelessness. Projects serving households with children or youth must have a staff person that is designated to ensure children or youth are enrolled in school and connected to the appropriate services within the community. Reminder: failure to comply with federal education assurances may result in Federal sanctions and significantly reduce the likelihood of receiving funding through the CoC Program Competition.

Please check the box that you acknowledge you will be required to meet the above requirements if you have any qualifying participants.

2. Describe how participants will be assisted to obtain and remain in permanent housing.

CAPNC will continue to participate in coordinated entry as the primary means of having clients obtain permanent housing, as well as implementing active street outreach, and utilizing other community agency referrals. Once clients are in our Permanent Supportive Housing Program, we utilize intensive case management to work with residents in order to transition them to unsubsidized permanent housing within our community.

3. Describe specifically how participants will be assisted both to increase their employment and/or income and to maximize their ability to live independently.

Our intensive case management includes an employment opportunities for success program which is unique in that we actively partner with local businesses by having an agreement that individuals referred by our office will be strongly considered for employment and if hired, our staff will partner with employee managers to ensure that issues that could lead to termination will be referred to our staff in order to provide an appropriate intervention. The goal is to prevent termination of our client and reduce turnover for the business owner. This local business partnership also assists a client's ability to increase income which leads to independent living. Our program enhances our community involvement. Traditionally we have worked with other human service agencies; we have now brought in the private sector employer.

**4. For all supportive services available to participants, indicate who will provide them and how often they will be provided.

5C. Outreach for Participants

1. Enter the percentage of project participants that will be coming from each of the following locations.

40%	Directly from the street or other locations not meant for human habitation.

2. Describe the outreach plan to bring these homeless participants into the project.

We provide active and extensive street outreach routinely. Two social workers work with Central Wyoming Rescue Mission (CWRM) to meet their homeless clients twice weekly. We also send a van to CWRM and provide transportation to HCH. Additionally, we frequent Poverty Resistance, 12/24 Building, Salvation Army, Joshua's and Probation and Parole. Wednesday afternoons we work in tandem with St. Mark's Church at the Library providing outreach and distributing hygiene items. Twice per month we coordinate dispensing free laundry vouchers to the homeless. Additionally, we have just opened our Comfort Closet, that provides diapers, women's essential items, soap, shampoo, lotion, detergent for washing clothes, blankets, hats, gloves, and various other items. We routinely go to Walmart, Flying J, all of the parks, with a heavy emphasis at the river. We have run the Point in Time Count for over five years for Natrona County and this has afforded us great knowledge relative to the areas where our homeless reside. Churches and other agencies provide regular referrals to us as well.

CoC Renewal Grant

\$64,766.00

Before Starting the Project Application

To ensure that the Project Application is completed accurately, ALL project applicants should review the following information BEFORE beginning the application.

Things to Remember

- Additional training resources can be found on the HUD Exchange at <https://www.hudexchange.info/e-snaps/guides/coc-program-competition-resources/> - Program policy questions and problems related to completing the application in e-snaps may be directed to HUD via the HUD Exchange Ask A Question.
- Project applicants are required to have a Data Universal Numbering System (DUNS) number and an active registration in the Central Contractor Registration (CCR)/System for Award Management (SAM) in order to apply for funding under the Fiscal Year (FY) 2018 Continuum of Care (CoC) Program Competition. For more information see FY 2018 CoC Program Competition NOFA.
- To ensure that applications are considered for funding, applicants should read all sections of the FY 2018 CoC Program NOFA and the FY 2017 General Section NOFA.
- Detailed instructions can be found on the left menu within e-snaps. They contain more comprehensive instructions and so should be used in tandem with onscreen text and the hide/show instructions found on each individual screen.
- Before starting the project application, all project applicants must complete or update (as applicable) the Project Applicant Profile in e-snaps.
- Carefully review each question in the Project Application. Questions from previous competitions may have been changed or removed, or new questions may have been added, and information previously submitted may or may not be relevant. Data from the FY 2017 Project Application will be imported into the FY 2018 Project Application; however, applicants will be required to review all fields for accuracy and to update information that may have been adjusted through the post award process or a grant agreement amendment. Data entered in the post award and amendment forms in e-snaps will not be imported into the project application.
- Expiring Shelter Plus Care projects requesting renewal funding for the first time under 24 CFR part 578, and rental assistance projects can only request the number of units and unit size as approved in the final HUD-approved Grant Inventory Worksheet (GIW).
- Expiring Supportive Housing Projects requesting renewal funding for the first time under 24 CFR part 578, transitional housing, permanent supportive housing with leasing, rapid re-housing, supportive services only, renewing safe havens, and HMIS can only request the Annual Renewal Amount (ARA) that appears on the CoC's HUD-approved GIW. If the ARA is reduced through the CoC's reallocation process, the final project funding request must reflect the reduced amount listed on the CoC's reallocation forms.
- HUD reserves the right to reduce or reject any renewal project that fails to adhere to 24 CFR part 578 and the application requirements set forth in the FY 2018 CoC Program Competition NOFA.

Information About Submission without Changes

After Part 1 is completed; including this screen, Recipient Performance screen, and Renewal Grant Consolidation screen, then Parts 2-6, are available for review as "Read-Only;" except for 3A, 7A and 7B which are mandatory for all projects to update. After project applicants finish reviewing all screens, they will be guided to a "Submissions without Changes" Screen. At this screen, if applicants decide no edits or updates are required to any screens other than the mandatory questions, they can submit without changes. However, if changes to the application are required, e-snaps allows applicants to open individual screens for editing, rather than the entire application. After project applicants select the screens they intend to edit via checkboxes, click "Save" and those screens will be available for edit. Importantly, once an applicant makes those selections and clicks "Save" the applicant cannot uncheck those boxes.

If the project is a first-time renewal or selects "Fully Consolidated" on the Renewal Grants Consolidation screen, the "Submit Without Changes" function is not available, and applicants must input data into the application for all required fields relevant to the component type.

Recipient Performance

1. Has the recipient successfully submitted the APR on time for the most recently expired grant term related to this renewal project request? Yes

2. Does the recipient have any unresolved HUD Monitoring and/or OIG Audit findings concerning any previous grant term related to this renewal project request? No

3. Has the recipient maintained consistent Quarterly Drawdowns for the most recent grant term related to this renewal project request? Yes

4. Have any Funds been recaptured by HUD for the most recently expired grant term related to this renewal project request? No

Renewal Grant Consolidation Screen

HUD encourages the consolidation of renewal grants. As part of the FY 2018 CoC Program project application process, project applicants can request their eligible renewal projects to be part of a Renewal Grant Consolidation. This process can consolidate up to 4 renewal grants into 1 consolidated grant. This means recipients no longer must wait for grant amendments to consolidate grants. All projects that are part of a renewal grant consolidation must expire in Calendar Year (CY) 2019, as confirmed on the FY 2018 Final GIW, must be to the same recipient, and must be for the same component and project type (i.e., PH-PSH, PH-RRH, Joint TH/PH-RRH, TH, SSO, SSO-CE or HMIS).

1. Is this project application requesting to be part of a renewal grant consolidation in the FY 2018 CoC Program Competition? **No**
If "No" click on "Next" or "Save & Next" below to move to the next screen.

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

Community Action Partnership of Natrona County (CAPNC) has secured 18 units to operate the Housing First Model for individuals and families experiencing chronic homelessness. CAPNC will identify potential clients through outreach and engagement with referrals from partnering community agencies. Referrals are commonly provided by Wyoming Rescue Mission, Central Wyoming Counseling Center and CAPNC's Healthcare for the Homeless. A CAPNC employee, who is a licensed Social worker will build trust in a neutral setting with people experiencing homelessness, utilizing outreach evidenced based practices. Continued face to face contact with the Case Manager will eventually build trust and provide the opportunity to successfully link people to appropriate housing. There is no expectation of sobriety, treatment, compliance or mandated services. We use a client centered approach and participants are not commanded to participate in psychiatric services, attend life skills training or parenting classes or address any other medical issues. The only expectations of Housing First Participants are to meet weekly in their home with their respective case manager, pay their proportionate share of rent and to comply with a standard lease agreement, essentially agreeing to "be a good neighbor". Units are centrally located to provide ease of access to transportation, medical services, food pantries, parks, churches and social supports. A trip to the local food pantries is scheduled weekly for program participants. Continuing education (GED/Hi-SET, secondary education) is strongly encouraged and supported. A community college and four-year college are located within walking distance of the apartments and provides numerous educational and vocational training programs. Transportation is available utilizing CAPNC's van for medical and mental health appointments at CAPNC's Healthcare for the Homeless (HCH-a federally qualified health center) and other medically necessary appointments. Additional rides may be given to job interviews, school and accessing food and medical prescriptions. Another service provided by HCH is the enrollment in the Patient Assistance Program, which provides prescriptions for patients at an extremely reduced cost of \$2 per prescription. A SOAR Certified Advocate is available to assist clients with mainstream services such as filing for SSI/SSDI Benefits and applying for Medicare/Medicaid. Lastly, participants are provided opportunities to integrate into the larger community through volunteering. Volunteering is known to provide a higher sense of purpose and create a greater sense of community engagement.

3C. Dedicated Plus

Dedicated and DedicatedPLUS

A "100% Dedicated" project is a permanent supportive housing project that commits 100% of its beds to chronically homeless individuals and families, according to NOFA Section III.3.b.

A "DedicatedPLUS" project is a permanent supportive housing project where 100% of the beds are dedicated to serve individuals with disabilities and families in which one adult or child has a disability, including unaccompanied homeless youth, that at a minimum, meet ONE of the following criteria according to NOFA Section III.3.d:

- (1) experiencing chronic homelessness as defined in 24 CFR 578.3;
- (2) residing in a transitional housing project that will be eliminated and meets the definition of chronically homeless in effect at the time in which the individual or family entered the transitional housing project;
- (3) residing in a place not meant for human habitation, emergency shelter, or safe haven; but the individuals or families experiencing chronic homelessness as defined at 24 CFR 578.3 had been admitted and enrolled in a permanent housing project within the last year and were unable to maintain a housing placement;
- (4) residing in transitional housing funded by a joint TH and PH-RRH component project and who were experiencing chronic homelessness as defined at 24 CFR 578.3 prior to entering the project;
- (5) residing and has resided in a place not meant for human habitation, a safe haven, or emergency shelter for at least 12 months in the last three years, but has not done so on four separate occasions; or
- (6) receiving assistance through a Department of Veterans Affairs(VA)-funded homeless assistance program and met one of the above criteria at initial intake to the VA's homeless assistance system.

A renewal project where 100 percent of the beds are dedicated in their current grant as described in NOFA Section III.A.3.b. must either become DedicatedPLUS or remain 100% Dedicated. If a renewal project currently has 100 percent of its beds dedicated to chronically homeless individuals and families and elects to become a DedicatedPLUS project, the project will be required to adhere to all fair housing requirements at 24 CFR 578.93. Any beds that the applicant identifies in this application as being dedicated to chronically homeless individuals and families in a DedicatedPLUS project must continue to operate in accordance with Section III.A.3.b. Beds are identified on Screen 4B.

1. Indicate whether the project is "100% Dedicated", "DedicatedPLUS", or "N/A", according to the information provided above. 100% Dedicated

The following information summarizes the funding request for the total term of the project. Budget amounts from the Leased Units, Rental Assistance, and Match screens have been automatically imported and cannot be edited. However, applicants must confirm and correct, if necessary, the total budget amounts for Leased Structures, Supportive Services, Operating, HMIS, and Admin. 1. What is your organizations mission?

The mission of Community Action Partnership of Natrona County is to empower individuals to become self-sufficient by reducing poverty and homelessness, and promoting physical and mental health in collaboration with other human service agencies.

2. What geographical area & populations are being served by your organization?

Community Action Partnership of Natrona County serves all Natrona County residents. Our services focus on individuals and families experiencing poverty and homelessness. Although the level of poverty differs based on different funding guidelines, the majority of the clients we serve are below 125% of the Federal Poverty Guidelines. To put this in perspective, the 2018 poverty level for a family of 4 to receive services at or below 125% poverty level would be an annual income of \$31,375 (\$2,614/month) or less. Over the last three years we have seen a significant increase in the number of individuals who have lost jobs or had hours reduced due to the economic downturn in our community. This has increased the number of individuals who meet these funding guidelines. In addition to addressing those in poverty, we place significant effort identifying and intervening for families who are homeless; this includes situational, generational, and chronic homelessness. In order to address homelessness, we must analyze the causes of the homelessness. One of the key causes of homelessness is mental health, often co-occurring with substance abuse. This requires that Community Action Partnership of Natrona County provide appropriate services for those experiencing mental illness, as well.

3. What programs/services are currently offered by your organization?

Community Action Partnership of Natrona County provides services in four (4) areas: housing, self-sufficiency, physical and mental health, and supporting other human service agencies in our community. In the arena of housing, there are very few agencies in Natrona County providing assistance. We currently offer financial assistance by providing rental payments that prevent families from losing existing housing. We often see families who encounter a large unexpected expense, such as vehicle repairs. If they lose their car, it could impact their ability to retain employment; however, if they pay the car repair bill, they may not have enough to make their monthly rent payment. We assist with a monthly rent check in order to retain their housing. For those who have already lost their housing, we are able to re-house that family by paying up to three (3) months rent. When evaluating which clients we can assist, we analyze the family's ability to maintain that housing after our rental assistance expires. In addition to rent, we also assist with utility payments. We often see in the winter families who have electric heat with enormous bills that exceed their low income budget. We are able to make a portion of the utility payment. Within the housing arena we also provide 22 units of Permanent Supportive Housing, specifically for those who are chronically homeless, which includes a diagnosis of mental illness. In the arena of self-sufficiency, we assist low income families with skills that help them gain employment or increase their employment income. We financially assist with the fees for certification courses, which, once complete, can quickly move an individual from living below the poverty line. In addition to the financial assistance, we provide support with a variety of employment and life skills, such as resume writing, job interviewing, and budgeting. All clients who are assisted with self sufficiency support are tracked for one year to evaluate the effectiveness of the service. The majority of our physical and mental health services are provided through Healthcare for the Homeless. We are funded to provide primary care, as well as supportive mental health services, which include medication. We participate in the Patient Assistance Program in order to enroll patients in a program that provides prescriptions that are funded by the pharmaceutical companies. We also operate a 340b dispensary that provides medically needed prescriptions. We partner very closely with University of Wyoming Family Practice, Wyoming Behavioral Institute, Central Wyoming Counseling Center, and Community Health Center of Central Wyoming. We have recently implemented a significant outreach component by partnering with Central Wyoming Rescue Mission. Twice each week our medical provider is at the Mission to provide care, removing a travel barrier. Finally, we have served to assist the Natrona County Board of County Commissioners and the City of Casper distribute one cent funding to human service agencies in the community. We will continue to provide this service for the Board of County Commissioners. The detail of how those funds have been distributed is discussed in question 4.

4. Describe how your 1% #15 funding was used.

The Community Action Partnership of Natrona County utilized 2017-2018 funds awarded under our four (4) year contract that ended 6/30/2018 to support 13 agencies within Natrona County for services that assist senior citizens, low income/homeless, individuals with disabilities, family violence, juvenile justice, and substance abuse. Summary of subcontracts: Food Bank of the Rockies -- \$17,000, Food Pantries of Natrona County -- \$40,000, Hospice -- \$10,000, Wyoming Senior Companion Program -- \$7,000, Central Wyoming Rescue Mission -- \$37,300, Central Wyoming Senior Center -- \$18,000, Brain Injury Alliance -- \$4,000, Self Help Center -- \$23,000, Meals on Wheels -- \$12,800, CASA -- \$13,000, Mercer Family Resource Center -- \$16,750, Youth Crisis Center -- \$10,000, Children's Advocacy Project -- \$17,000, Retired Senior Volunteer Program -- \$10,000, and Housing First -- \$64,574. These subcontracts are made with a combination of Natrona County One Cent Allocations and City of Casper One Cent Allocations, which is why the total exceeds the amount of the 2017-2018 City of Casper allocation noted on page 1 of this request. If our 1% #15 request for the period of 7/1/2018- 6/30/2019 is funded, those monies will be used to support Permanent Supportive Housing that follows the Housing First Model. This program has strong outcomes; During the grant period July 1, 2017 – June 30, 2018, eighty six percent (86%) of our residents have maintained housing stability, exceeding the program outcome goal outlined in the grant application. Ten percent (10%) of those clients graduated from the program and now have unsubsidized housing because of the intensive supportive services provided by CAPNC staff. These graduations from the program allow us to open a PSH unit to another chronically homeless individual. During that same time frame thirty two percent (32%) of our residents increased total family income as a result of our supportive services.

5. Describe how your 1% #16 funding will be used.

As a result of the reduction of agencies in our community that support homeless prevention and rapid re-housing, we will use any funds allocated through this request to provide direct services to low income and homeless individuals and families in our community who are at risk of losing their housing or to get them quickly re-housed. This will primarily be rental assistance; however, it could include utility payments that can often interfere with housing stability. In the past there were two other agencies in our community that provided rental and utility assistance that we regularly partnered with. Both those agencies have dramatically reduced that assistance or eliminated that assistance. As a result, Community Action Partnership of Natrona County currently provides the majority of these services. We will implement the same poverty guidelines that are in place with the CSBG grant -- 125% or below the federal poverty guidelines to ensure those who are most in need can receive assistance that stabilizes a family.

6. If your total grant request is more than the previously requested, please explain why.

N/A This request is not an increase over the 1% #15 request.

7. How will it affect your program if you do not receive this funding?

We are fortunate to have a federal grant that currently supports some of the need to stabilize housing in our community. This means we have a formalized process in place to assist our community with housing. With this process in place we can increase the number of families we assist if awarded 1% #16 funding. If we do not receive the funding in this request, it will reduce the number of families we can assist with housing stabilization services in our community. We do not yet know if those federal funds will be affected by the federal budgeting process; however, the service will continue to be offered through that grant to whatever extent the funding awarded can support.

8. How does your organization evaluate itself and programs for effectiveness?

Community Action Partnership of Natrona County utilizes a case management software system and an electronic health record system that allows us to track both service delivery and program outcomes. In the housing and self-sufficiency program we evaluate outcomes such as, maintaining housing, maintaining a budget, acquiring and maintaining a job. We also track the number of families who request housing stabilization services and those receiving housing stabilization services. We also track our physical and mental health outcomes, such as diabetes management, depression screenings, cancer screenings, and asthma management. For our subcontracts we collect and compile quarterly reports from all subcontractors detailing their progress toward outcomes outlined in their application process. Those are summarized in a spreadsheet and forwarded to the City of Casper and Natrona County on a quarterly basis. Community Action has continued to meet and/or exceed its goals and outcomes for number of clients seen and individuals and families receiving rental assistance. Additionally, the federal Housing Management Information System allows us to input and track data on homeless clients. Many of our grants require monthly or quarterly reporting, which enables us to monitor our effectiveness in a timely manner. Our case management system, CAP 60, reflected a 19% increase in the number of individuals whose rent Community Action Partnership of Natrona County paid during October 1, 2016 to September 30, 2017 versus that same period of time during 2015-2016. The information in our case management system is paramount as it provides us with a precise look at the needs of the community. From a qualitative perspective, Community Action also utilizes a Client Satisfaction Survey, which is anonymous and directly reflects the client's overall assessment of the case management/advocacy received. This affords our clients a way to provide us with feedback and Community Action a way to maintain and/or improve the quality of client interactions, if necessary. Also, Community Action completed a Needs Assessment for Natrona County in December of 2017. Housing and health care were among the top three poverty indicators and showed a need for change. Lastly, Community Action is embarking on a new pilot program that will provide long-term case management and support services to 20 families in Casper. This will afford them to be a viable part of this community. Our new motto is, "If we're not talking about housing we're not asking the right questions."

Operating (unrestricted, available for use) vs. Capital (restricted for a particular purpose or project)

The negative in operating reserves was covered by program fees that were not expended in FY 2016-2017.

Below are the definitions for Reserves:

*Operating Reserves - these are the funds necessary for the organization to cover operating costs. Usually these funds are needed to cover gaps between funding periods, or to cover shortages in revenue.

** Capital Reserves - Funds restricted for a specific purpose such as for long-term capital investment projects or any other large and anticipated expense(s) that will be made in the future

BRENNAN SHEW – Applying for a Journeyman Plumbing License. After discussion and review of the application and affidavit, Andrew Elston moved to approve Brennan Shew to test for a Journeyman Plumbing License. Steve Boyle seconded the motion. Motion approved.

MISCELLANEOUS COMMUNICATIONS

PROPOSED COMPACTION ORDINANCE – Of 1,795 homes that have been built within city limits since 2007, one home had be moved; two homes have had to be repaired because of structural issues; and 11 are in litigation. However, due to a news article regarding sinking houses on the west side of town and the implication this was caused by improper compaction, City Council is considering implementing a Compaction Ordinance that would require compaction inspections and testing for construction of all one and two family dwellings.

The City is holding a “Coffee Talk” on August 23rd at 7 a.m. to discuss implementation of a soil compaction ordinance. Dan Elston invited the Board to attend. Invitations will go out to those who would be affected by the proposed Compaction Ordinance (i.e., Class I and II general contractor’s that construct homes, utility contractors, developers, and realtors). Dan Elston has made contact with several other jurisdictions to see if they enforce compaction. Of all the cities/counties polled, Dan did not find any other jurisdiction that require soil compaction. Dan distributed a questionnaire to the Board for their review, which will be sent out to those affected by compaction. Dan Elston asked the Board for their approval/input on the survey. Steve Boyle moved to give Dan Elston the approval to distribute the questionnaire to those who would be affected by the proposed ordinance. Adam Hall seconded the motion. Motion Approved.

COMPLAINT – ELITE CONSTRUCTION – A complaint was filed on Steven Hoff of Elite Construction. The complaint states that the complaining party paid Elite Construction 65% of the bid price, windows were partially installed when Casper had several rain storms in which the complaining party's basement flooded, and to date the job still has not been completed. Justin Scott (residential inspector) has done several inspections for this project in which the complaint was filed. When performing an inspection, the inspector looks to see if the work performed meets the minimum code standards (i.e., size, heights, etc.) of the IRC. The inspector does not look at quality of workmanship. Justin Scott's inspection did confirm that the egress windows meet the egress opening and height standard requirements from the finished floor and that the window wells are the correct size for emergency egress. However, there are some drainage issues that need to be addressed. Dan Elston stated that he has contacted Steven Hoff regarding the complaint, and Steven has stated that he would take care of the drainage issues. Because the inspections show that the minimum standards of the IRC were met, there is nothing that the Building Division can do. The City of Casper Building Division does not have authority over the time lapse of a project nor monetary issues. This complaint appears to be a civil issue. Dan Elston stated that he will put this complaint on file.

ADJOURN – The meeting adjourned at 4:50 p.m.

Respectfully submitted,

A handwritten signature in black ink that reads "Dan Elston". The signature is written in a cursive, flowing style.

Subject: Rafael Villa Ruiz - Complaint

Dear Sirs:

I am a 50% owner of Ruiz Construction LLC; and Rafael Villa Ruiz (Ruiz) owns the other 50%. The operating agreement of Ruiz Construction LLC which both Ruiz and I signed provides for a "Duty of Loyalty" to Ruiz Construction LLC and both Ruiz and myself must "act solely for the benefit of the LLC" and not for our personal benefit. Now Ruiz is continuing to operate but not communicating with me or the bookkeepers for the LLC.

Ruiz has been diverting funds belonging to the LLC for his own personal benefit and to the detriment of the LLC. (1) On a job bid, completed and invoiced by the LLC Ruiz had the customers make out their check for \$7,650.00 on 7-20-18 in his name and Ruiz negotiated said check without notice to the LLC and strictly for Ruiz's personal benefit. (2) On another job bid, completed and invoiced by the LLC Ruiz purportedly took \$2000.00 in cash without notice to the LLC and strictly for Ruiz's personal benefit. (3) On another job bid, completed and invoiced by the LLC in the amount of approximately \$70,000.00 Ruiz purportedly received funds in satisfaction for the job without notice to the LLC and strictly for Ruiz's personal benefit. (4) Although Ruiz and I as sole members of the LLC have agreed that copies of all contracts, invoices, bills and receipts, and checks for payment are to be provided to the LLC's bookkeepers Ruiz has and continues to refuse and fail to do that; but Ruiz is instead taking payments and negotiating them into cash for Ruiz's personal benefit to the detriment of the LLC.

Ruiz is utilizing the license from the Contractor's Board to produce revenue that belongs to the LLC but taking it for his personal benefit.

Sincerely,

Tarandeep Kaur

Letter of Recommendation

For:

Ruiz Construction

Rafael Ruiz

To Whom It May Concern:

We are a small specialty custom quality builder. We go to different areas and find trustworthy people to do needed work on our custom projects who will meet our high standards.

As we are building a custom home in Casper, Wyoming, we heard about Rafael Ruiz and his Ruiz Construction business. We asked to view some of his work. We inspected his drywall on a large custom home and found his work to be of superior quality. We then contracted with him for our drywall job in the custom home. Upon completion, several well respected local subs commented that it was the best drywall finish they had seen.

He completed the work in a timely way and even kept us informed daily as to the progress. We have relied on him for other work as he is versatile, completes work on time, and operates ethically and fairly.

We highly recommend him. Please let us know if you have any questions or would want additional details about his work.

Best regards,

To Whom It May Concern,

It gives me great pleasure to write this letter of recommendation on behalf of Rafael Ruiz; general contractor. Rafael has been the single contractor I have come to rely on in the past two years.

While I have only known Rafael personally for a short time, he has become my trusted "go to" contractor, as others I have hired have been unreliable, slow to get the job done, and overpriced. Quite frankly, we have had well known contractors not even show up when they confirmed they would be on site at a specific date. Rafael is an organized leader and a great coordinator, running multiple crews simultaneously and efficiently. Rafael has a high level of expertise in the field and I trust his judgment and input. We have also hired his crews to go out of town for us when we could not man our own labor crews. Raphael Ruiz has always shown up when promised and finished the job correctly, and with no call backs.

What I appreciate most about Rafael is his expertise, professionalism, and honesty. He always returns my calls and always makes sure the job he was hired to do getting the job done correctly, and in a timely manner. He is up-front and fair regarding pricing and the quality of his work is top-notch. Rafael always makes sure the customer is satisfied with his work prior to completing a job. I highly recommend Rafael for class 2 General Contractors License.

Sincerely,

Subject: Community Block Grant

Hello, my name is Damion Burback, I'm the transportation specialist at Wyoming Independent Living. I'm writing regarding the city's decision not to pursue the Community Block Grant this year. I understand that going after this grant has become very time consuming for city staff. Working in nonprofit, I understand the hardship in applying for these grants and the time and energy that is put in to them. But I also know how essential it is to get these funds. I know that CATC used to get around \$70,000.00 a year to provide subsidized tickets and tokens to people who could not afford to pay for those rides. At Wyoming Independent Living, I run the Transportation Check Program. We help people with disabilities who are unable to drive with funding for transportation, primarily public transit. I am currently capped out with 165 consumers on my program. I have nearly 75 people on my waitlist and have received somewhere around 20 calls and walk ins in the last week asking for assistance. I honestly don't know what to tell these people. Other than my program, there is nothing out there to assist them with transportation, and I'm limited on what I can do.

I also refer people to Community Action regularly for assistance with emergencies and in times of hardship. I know because of this decision not to pursue the block grants, CAP will lose a great deal of their funding. I fear that there are very dark days ahead for the disabled, poor, and disadvantaged in this community. These programs provided at least some assistance to those in need. We are talking about the most vulnerable people in this community who are going to be impacted by these decisions. I understand the hardship in applying for these grants, but I think that hardship pales in comparison to the hardship that the already extremely vulnerable are going to endure, based on the decision to not pursue the Community Block funds. I urge you to reconsider this. Thank you for your time!

- The State pays roughly 85% towards the employees elected health, dental and life insurance monthly.
- For more details [click here](#).
- All plans have an initial deductible; the State Health Plan pays in-network and in-state providers for covered medical expenses at 80 or 85 percent. This amount may be less, if care is received from an out-of-state non-network provider.
- A new employee and their dependents have 31 days from date of eligibility to enroll.
- Coverage begins on the first day of the month following employment.
- Various deductibles are available.
- The State also offers a Health Savings Account (HSA) option. An HSA is like an IRA for medical care and requires a great deal of thought before electing to participate due to the restrictions and limitations. There are, however, some very attractive aspects to this option for certain individuals. If you think you may be interested, please request additional information on this option.

A Weekly Message

WOHS Wants to Get Wyoming Two Weeks Ready

September is National Preparedness Month

In continued partnership with The Wyoming Office of Homeland Security, WAM is pleased to spread the word about the new "2 Weeks Ready" initiative. In assessing current and possible future threats, the decision was made to change the advice for individuals and families having supplies on hand for 72 hours, to now recommending having a two week store of food and provisions on hand. In support of this effort to help Wyoming residents successfully plan for and assemble their emergency build kits, WOHS has produced two supporting documents. Click the links below to access printable versions of both resources.
