

COUNCIL WORK SESSION
Tuesday, October 8, 2013, 4:30 p.m.
Casper City Hall
Council Meeting Room

AGENDA

1. Mayor's Prayer Luncheon
2. United Blood Services Award Presentation for Chief King
3. Revised DDA Strategic Plan
4. "We Read" Program
5. Natrona County High School (Update)
6. Community Promotions FY 2014 – Round 3 Results
7. Executive Session: Midwest – Fruit Warehouse

October 2, 2013

MEMO TO: John C. Patterson, City Manager *John C. Patterson*

FROM: Casper Downtown Development Authority

SUBJECT: Modified Version of Crandall-Arambula Study

Recommendation:

That Casper City Council, by minute action, adopts the recently modified version of the Crandall-Arambula Study as presented.

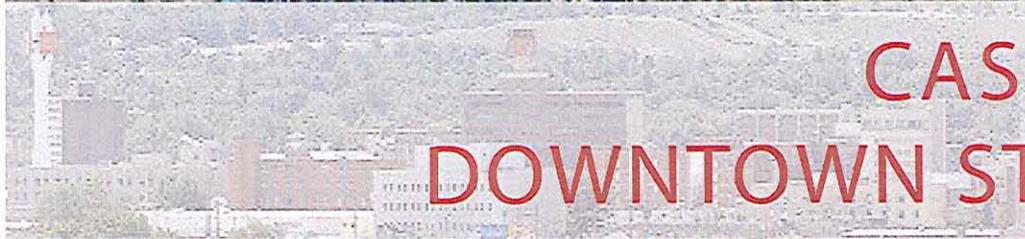

Summary:

After identifying the need, the Casper Downtown Development Authority (DDA) joined with the City of Casper in January of 2012 to work with the newly hired team from Crandall & Arambula. The overall goal was to receive a downtown strategic plan. After a lengthy process involving stakeholder, public, City staff and DDA input, Crandall & Arambula presented their proposed plan to the public in July of 2012.

While elements of the overall plan were not well received, the DDA embraced several projects for short and long term feasibility and implementation. Communication with Crandall & Arambula representatives led to a revised plan which represents ongoing and future projects that the DDA board and staff are working on.

The DDA initiated and assisted with a successful downtown parking garage and public restroom project grant application from the Wyoming Business Council. A requirement of the grant application was to provide a strategic plan which would support the project. Going forward, the DDA intends to work on several other projects in collaboration with the City. The need for a Council adopted plan that will support these projects is critical to their future success.

On July 9, 2013, the DDA presented a modified version of the Cramball-Arambula Study. After thoughtful discussion, Council requested further modifications to the document. Said modifications were presented and approved by the DDA board at its' August board meeting. The Casper Downtown Development Authority recommends that the Council adopt the Crandall-Arambula Study, as most recently modified and presented, for the benefit of the DDA district, the downtown core and the City of Casper.

CASPER DOWNTOWN STRATEGIC PLAN

Casper, Wyoming
August 2013

ACKNOWLEDGEMENTS

We salute those who support this strategic plan for Downtown Casper.

We would like to thank the Casper City Council for its leadership. Financial support for the Strategic Plan effort came from the City of Casper, Amoco Reuse Agreement Joint Powers Board, and the Downtown Development Authority (DDA) Board of Directors.

THE GUIDING PRINCIPLES

PLAN PURPOSE, PROCESS, AND GOALS

PLAN PURPOSE

The purposes of this plan are to develop a publicly supported vision that identifies the type and location of essential downtown amenities, features, facilities and businesses and to create a road map that establishes the order of development that will foster immediate and sustained downtown growth and prosperity.

PLAN PROCESS

An iterative design and planning process was undertaken over an eight-month period guided by regular and meaningful public involvement. The resulting plan reflects the community's vision for the future growth of downtown Casper. The process for engaging the public and stakeholders was based on the following:

- A transparent and inclusive process
- Citizen and elected official input
- Extensive public review and acceptance

Steering Committee, Stakeholder and Public Meetings

The steering committee, comprised of local public officials, citizens, and business people, reviewed all plan materials and provided input and direction for plan development and implementation. In addition, the consultant conducted over thirty-five key stakeholder meetings, a kick-off workshop, open house and multiple council sessions.

Project Process and Schedule

1 See the Possibilities

- 1) Analysis of Existing Conditions
- 2) Kick-off Meetings- City, Stakeholder, Community
- 3) Summary of Existing Conditions

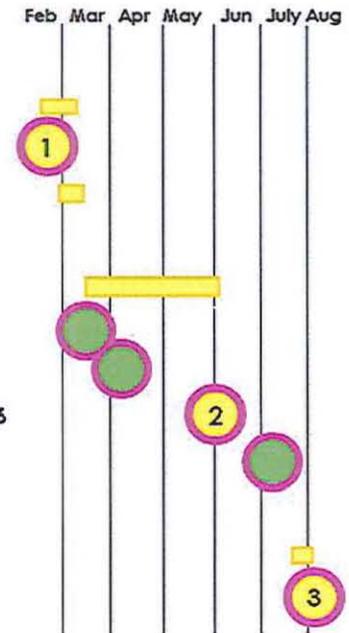

2 Build the Vision

- 1) Develop Materials (Concept & Implementation)
- 2) Preliminary Site Evaluations Meetings- Mar. 22
- 3) Conference Center Evaluation Meetings- April 10
- 4) City Staff Meeting and On Site Workshop- June 5 & 6
- 5) Additional Meetings and Open House- July 12 & 13

3 Create the Road Map

- 1) Finalize Materials (Concept & Implementation)
- 2) City Staff Meeting and City Council Presentation

-  Contract Meetings
-  Additional Meetings

Meetings Format

Each meeting, workshop, and session included an interactive PowerPoint presentation that consisted of two parts:

- Presentation—Identify the project purpose, process and schedule, summarize previous meetings, and review concepts
- Workshop—Identify questions and comments, discuss questions and ideas, fill out response sheets, review next steps

Project Planning Area

PROJECT GOALS

The following goals were developed during the initial meetings with the public, steering committee, public officials and stakeholder groups and served as the touchstone for the development and evaluation of the plan.

- Strengthen Downtown Retail
- Create Memorable Public Gathering Spaces
- Ensure Adequate Parking
- Build Local Support for the Plan
- Encourage a Mix of Downtown Housing
- Determine 'Best Sites' for a downtown Hotel

THE VISION

OVERVIEW

The Casper Downtown Strategic Plan provides a vision and an investment strategy that establish downtown as a regional destination and the focus of local redevelopment. The plan strengthens the existing retail concentration along and adjacent to 2nd Street, sets the stage for significant redevelopment of the Old Yellowstone District, and provides a framework for pedestrian- and bicycle-friendly street improvements that stitch together downtown destinations and connect with the North Platte River.

The Vision

The vision includes the revitalization of the retail core concentrated along 2nd Street and anchoring of the retail concentration with a new hotel and public plaza. To the west and the east of the retail core, development options are offered in order to:

- Supplement the retail offering on 2nd Street through strategically located retail anchors
- Introduce a significant number of housing units close to the retail core
- A concentration of high density housing on the full city block at both ends of the second street core retail block.

RETAIL CORE

The vision for downtown is a vibrant concentration of edge-to-edge street-oriented retail along 2nd Street between David and Durbin Streets. The singular focus of the strategic plan is to identify the fundamental elements and 'road map' that will change the perception of downtown and create an engine for economic development and investment that is unique to Casper.

The fundamental elements of the vision are:

- Retail Critical Mass—At build out, 260,000 square feet of ground-floor retail along 2nd Street and adjacent streets that will create a regional destination for shopping, dining and entertainment.
- West Retail Anchor & Parking—A site on the West side of downtown should be developed into a 30,000-square-foot retail space for a single user or a cluster of similar uses that includes a 450-space three-level parking structure.
- The development of a 60-100-room Boutique or similar hotel will provide a built-in stream of retail customers
- Public Plaza should be strategically located and scaled to provide a focus for civic activities and be surrounded by active ground-floor retail, entertainment, and restaurant uses.

RETAIL CORE PLUS HOUSING DEVELOPMENT

A downtown retail anchor and high-density downtown housing strengthen the retail core and create a 24-hour active downtown living environment.

The fundamental elements of developing the retail core and housing are:

- Retail Anchor—A 60,000-square-foot full-service grocery store, or similar use, with 140 on-site parking spaces is conveniently located at the highly visible intersection and includes an additional 25,000 square feet of street-oriented retail near the public plaza.
- Housing Development—A redevelopment area for approximately 300 apartments, condominiums, and townhomes should be located within walking distance of the North Platte River and 2nd Street shopping, dining, and entertainment destinations.

THE ROAD MAP

IMPLEMENTATION

Successful plan implementation will require a coordinated private and public effort to establish immediate development momentum, initiate priority and other projects, and ensure sustained investment over time.

Priority Projects

The following priority projects will provide the catalyst needed to stimulate private investment:

- Public Restroom Site Study & Implementation
- Retail Core Strategy
- Retail Anchor
- Downtown Wayfinding Signage Site Study & Implementation
- Downtown Hotel
- Public Plaza

PRIORITY PROJECTS

RESTROOM STUDY

Planning and design for a downtown location of public restroom facilities were identified as needed elements during the planning effort.

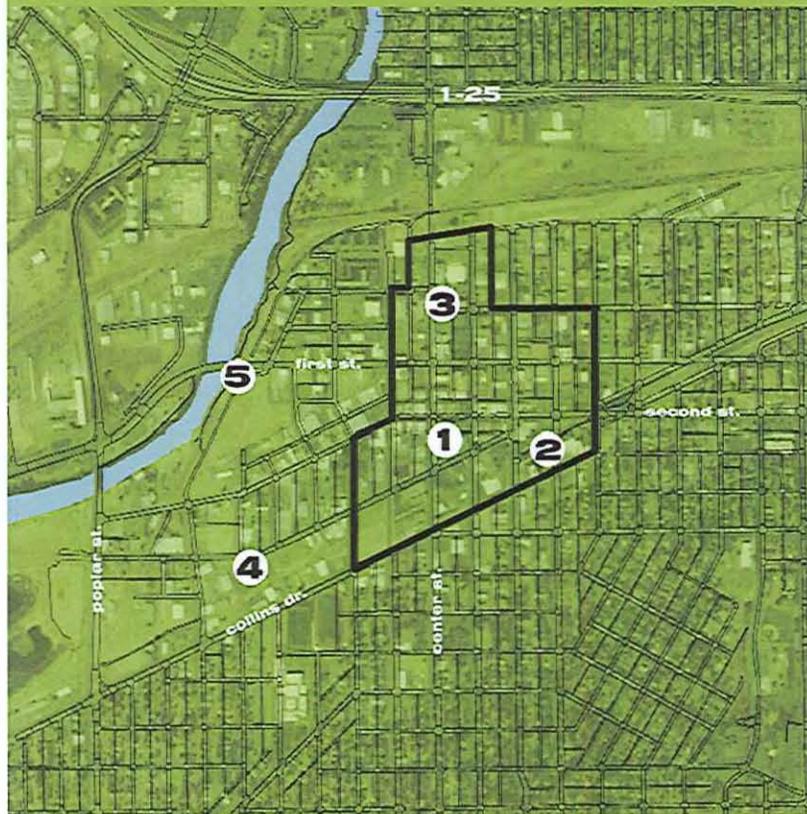

The actions needed to implement the public restroom study are indicated in the table to the right.

2) Initiate Public Restroom Study

- Appoint a review committee
- Prepare concept alternatives
- Review alternatives
- Refine preferred alternative
- Adopt public restroom plan

City/DDA

PRIORITY PROJECTS

WAYFINDING PLAN

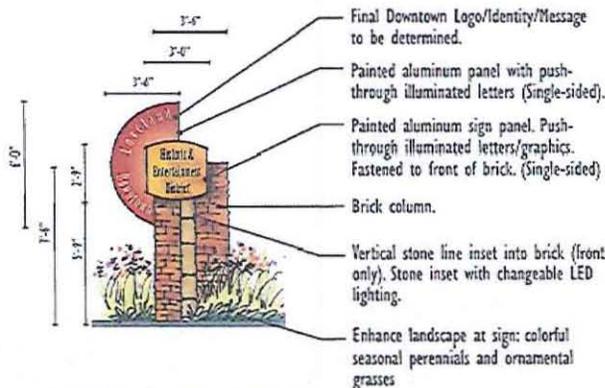

Planning and design for a downtown wayfinding system was identified as needed elements during the planning effort.

The actions needed to implement the wayfinding plan are indicated in the table to the right.

Action	Who
1) Prepare a Downtown Wayfinding Plan	
Appoint a review committee	City/DDA
Prepare concept alternatives	Consultant
Review alternatives	City/Consultant
Refine preferred alternative	Consultant
Adopt wayfinding plan	City

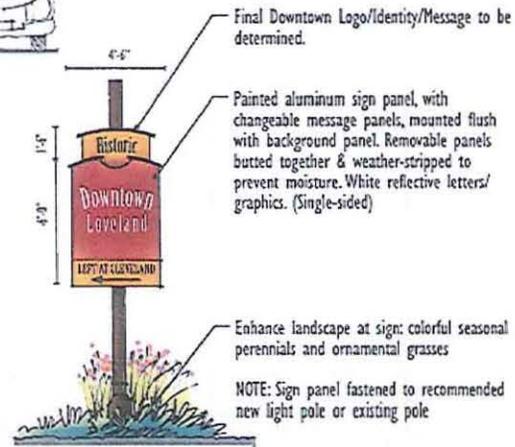

NOT TO SCALE

Secondary Downtown Gateway

NOT TO SCALE

Downtown Directional Sign

Wayfinding signage examples

PRIORITY PROJECTS

RETAIL CORE

Creating a successful retail environment requires a strategy for establishing edge-to-edge retail and locating anchor tenants at each end of 2nd Street, as proposed in this plan. To ensure that the vision is realized, community buy-in, city support, and both private and DDA recruitment of retailers must occur concurrently. Actively recruiting retail tenants will require a basic inventory of existing downtown retail space and potential locations for new retail space. This inventory database should be made available to potential retailers and retail recruiters. Furthermore, ongoing maintenance and investment in retail storefronts and buildings should be encouraged.

The actions needed to implement the retail core are indicated in the table to the right.

Action Items

1) Prepare Business and Property Inventory

Establish inventory study area

Develop and administer property and business survey

Prepare a business and property data base

Prepare a business and property analysis

2) Develop a Retail Recruitment and Marketing Strategy

Appoint a Retail Recruitment Committee

Prepare recruitment and marketing strategy

Adopt recruitment and marketing strategy

PRIORITY PROJECTS

RETAIL ANCHOR

It is vitally important that a retail anchor site be secured in the downtown core. Potential retail anchors to recruit include grocery stores, a pharmacy, regional or national retailers, a hardware store, and other large-volume stores.

While recruiting these retail anchors, the DDA, the with support of city staff and private developers, will pursue smaller regional and local retailers to infill existing vacant storefronts and new developments.

Action Items

1) Recruit anchor retailers
Contact potential anchor tenants to explore interest
Explore potential sites based on retailer interest
Assist developer in acquiring proposed sites and support infrastructure development

DOWNTOWN HOTEL

Implementation of a hotel will offer the opportunity for travelers to visit and stay in downtown Casper for an extended time. The design of the site, the building orientation, and parking access will be determining factors in the success of this project. To ensure that the hotel reinforces the strategic plan, a site development framework should be analyzed with review and input from the DDA, City of Casper Planning and Zoning, and City Staff.

The actions necessary for implementation of the conference center and hotel are indicated in the table to the right.

Action Items

1) Prepare site development framework

Identify active edges

Analyze pedestrian and vehicular traffic patterns and impact on existing transportation infrastructure

Evaluate project incentives and potential grant funding sources in collaboration with hotelier

2) Explore potential sites

Evaluate potential existing buildings for reuse

Evaluate potential vacant sites for new development

Support developers/hotelier pursuit of site

3) Secure hotel site

Assist hotelier in securing grant and/or development incentives

Support infrastructure development to support hotel and adjacent development

PUBLIC PLAZA

The public plaza will create a nexus for downtown events and daily gathering and will be a magnet for private investment adjacent to and near the selected site.

The actions necessary for implementation of the public plaza are indicated in the table to the right.

Action Items

1) Prepare site development framework

Analyze pedestrian and vehicular traffic patterns and impact on existing transportation infrastructure

Evaluate project incentives and potential grant funding sources in collaboration with city

2) Explore potential sites

Evaluate potential vacant sites for new development

Evaluate potential vacant buildings for demolition

3) Secure Plaza site

Assist city in securing grant and/or development funding

Support infrastructure development to support plaza and adjacent development

4) Build Plaza

Assist city in architect/engineering selection process

Assist city in design review process

Support city in contractor selection process

Assist city with construction administration of plaza

Public Presentation 2013

weRead

Spend 20 Minutes A Day With Someone Special

Why is literacy important?

Graduation Rate

In Natrona County in 2010, nearly 3 out of every 10 high school students dropped out or didn't graduate on time.¹

What's more, the percentage of high school graduates almost directly correlated with the number of third graders reading at or above grade level.²

Economic Impact

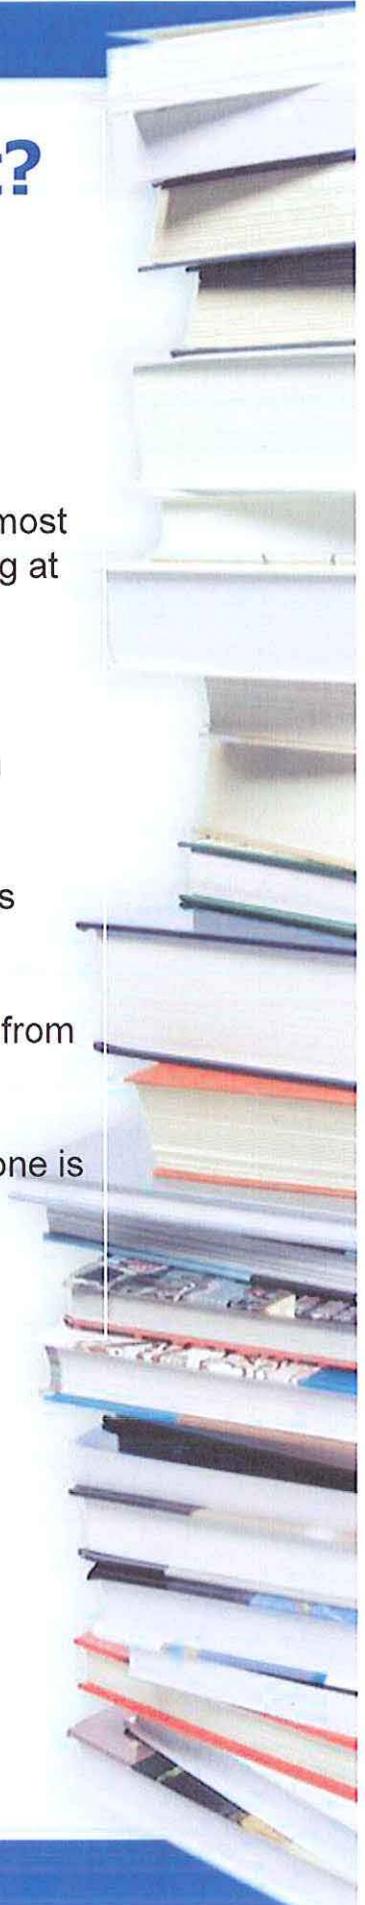

A study conducted by the Alliance for Excellent Education published in March 2012 revealed the following:

- On average, a high school graduate in Wyoming earns \$4,861 more each year than a high school dropout.³
- Roughly 2,000 students in Wyoming did not graduate from high school in 2011.³
- The lost lifetime earnings for that class of dropouts alone is \$159 million.³

¹Sources: Wyoming Department of Education. (2012). Every Student Counts/State Report Card, 2009-2012.

² *Ibid.*

³ Alliance for Excellent Education (Alliance), "The Cost of High School Dropouts," 2011

What this means?

Low Proficiency = Low-Skilled Workforce

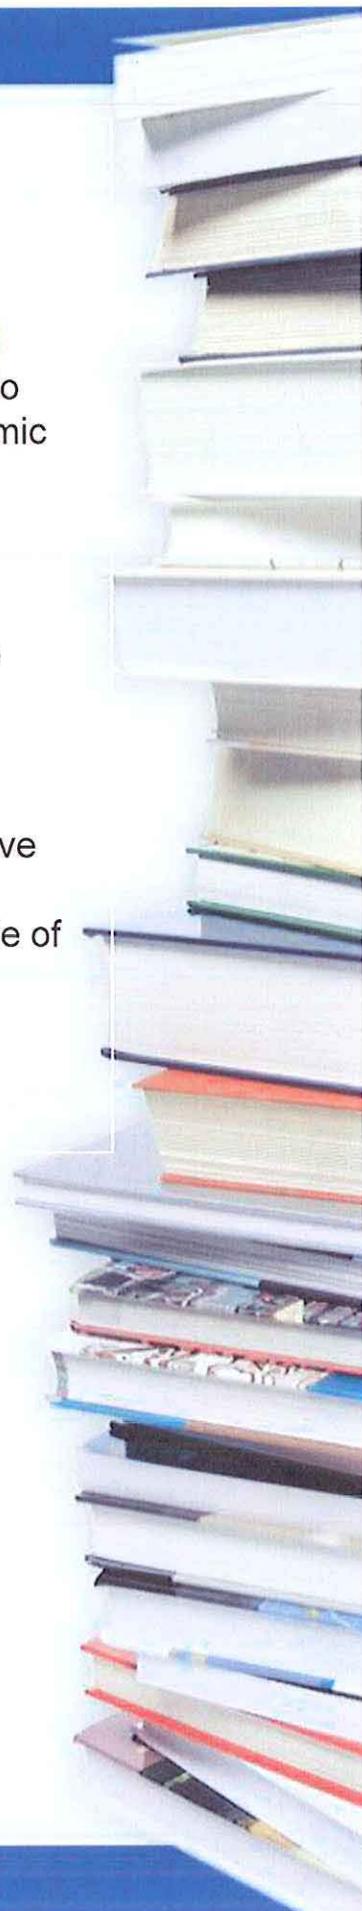

Since low reading proficiency in the third grade is linked to high school dropout rates and there are long-term economic consequences of a low-skilled workforce, lack of reading proficiency becomes a problem beyond the walls of the schoolroom.

It's a community problem that requires a community-wide solution.

Solution

Research has shown the best results in projects to improve school readiness and reading proficiency are likely where a local collaboration of stakeholders (in and outside of government) has been formed.¹

¹ Kingsley, G. Thomas and Hendey, Leah. (August 2010) *Using Data to Promote Collaboration in Local School Readiness Systems*. The Urban Institute.

MISSION:

All Natrona County students will read at or above grade level by the end of third grade.

STRATEGY:

Continue to execute an intense marketing campaign that promotes the importance of reading and establishes literacy as a core community value.

THE VISION:

- **Private/public partnership**
- **Access to quality, age appropriate reading materials**
- **Clear messaging targeted at importance of reading**

The research is clear: **children who are read to, and who read for pleasure, are significantly more successful in school than children who do not.**

(source: NEA website)

The Program

- Marketing
- Reading Material
- Results
- Sustainability

Marketing

weRead 

Marketing

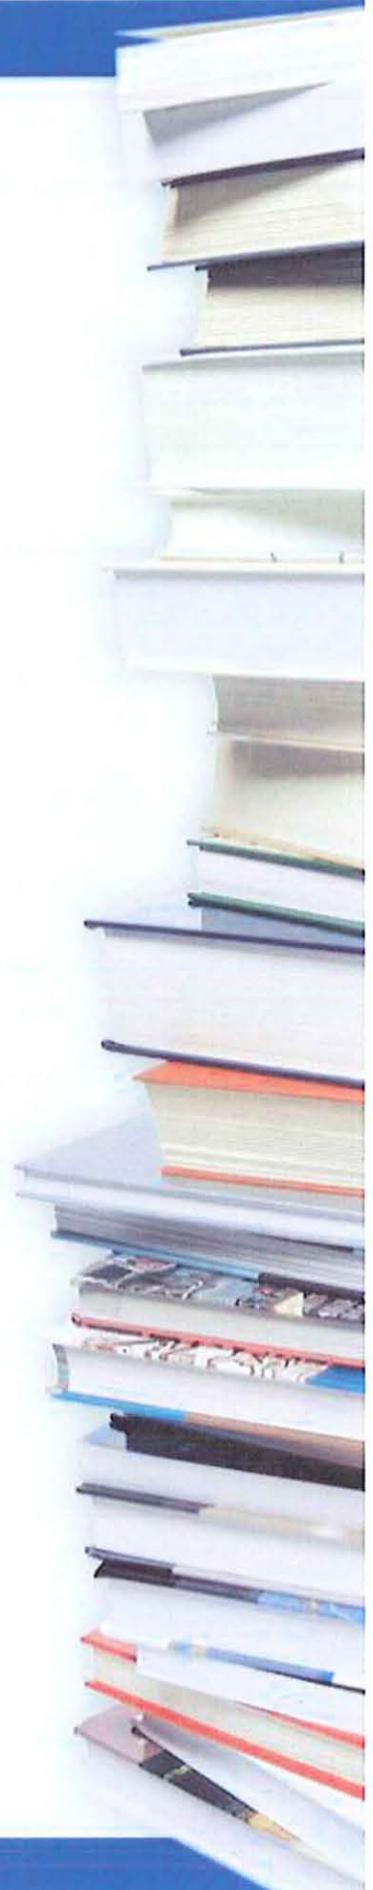

We Read is promoted throughout Natrona County using a multi-media campaign.

Messaging is delivered using:

- **Print ads in the Casper Star-Tribune and Casper Journal**
- **Interactive Video ads on trib.com**
- **Website - WeReadNatrona.com**
- **E-mail Marketing**
- **Television**
- **Radio**
- **Billboards**
- **Movie Theaters**
- **Community Events**

Core marketing themes:

- Marketing appeals to adults, encouraging them to read to their children and grandchildren.
- The campaign encourages reading as a family.
- The campaign highlights community-based opportunities for adults and children to improve their reading skills.

Reading Material

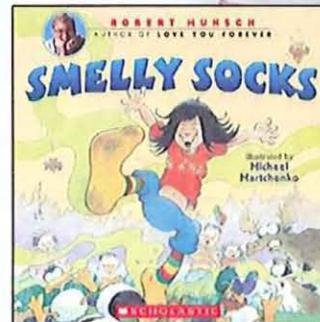

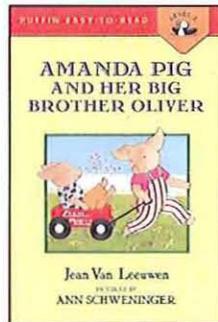

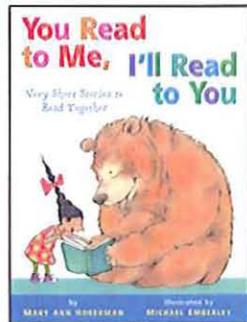

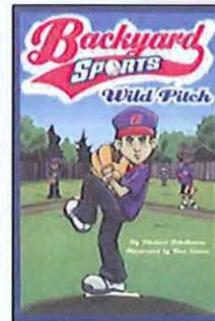

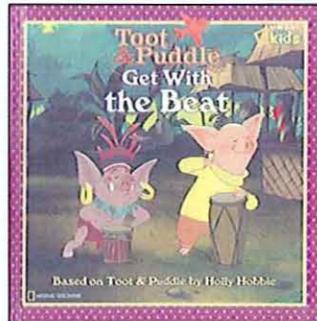

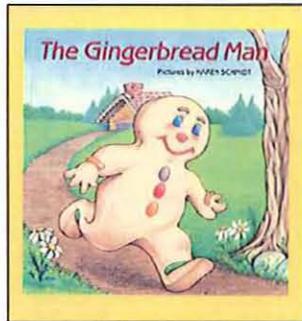

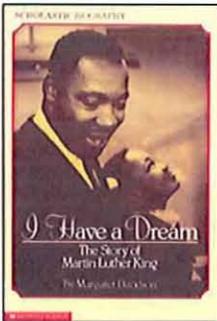

Personal Library-Building

Every month of the year, the We Read program provides every kindergartener through third grader in Natrona County with a new, age-appropriate book.

Studies indicate that there is a direct link between children's ownership of print material (books, magazines, etc.), their motivation to read, their positive attitude toward reading, emergent literacy skills and reading performance.¹

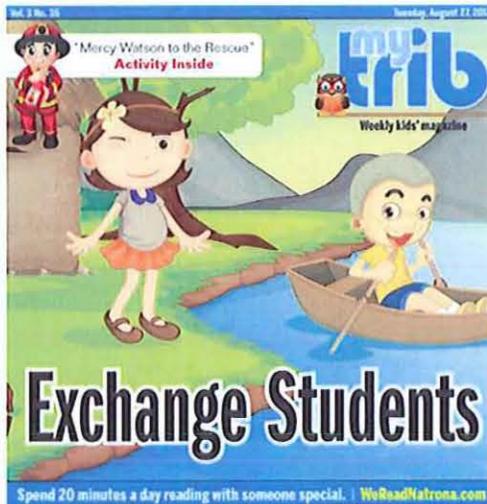

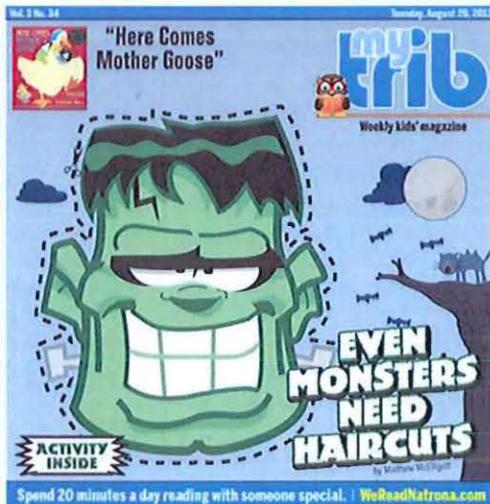

1 Lindsay, Jim. (August 2010). *Children's Access to Print Material and Education-Related Outcomes: Findings From a Meta-Analytic Review*. Learning Point Associates.

My Trib

Every week, every household in the county receives a package at their home consisting of a current issue of the Casper Star-Tribune, the weekly Casper Journal and a copy of My Trib. The package serves two purposes:

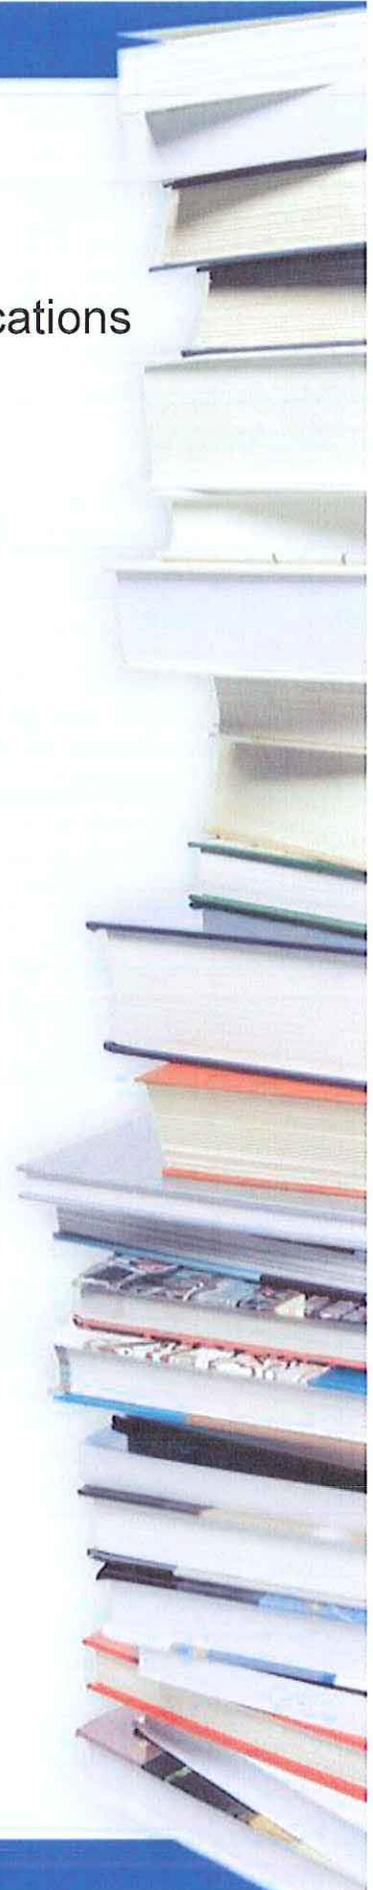

1. It gives parents an opportunity to connect with the community through its two newspapers, to gather information related to community events and resources as well as model the importance of reading within their home.
2. My Trib provides an effective tool for improving reading proficiency – it's easy to read in one sitting, attractive to young readers, and covers a wide variety of topics at various developmental levels within each issue to meet the diverse interests of its audience.

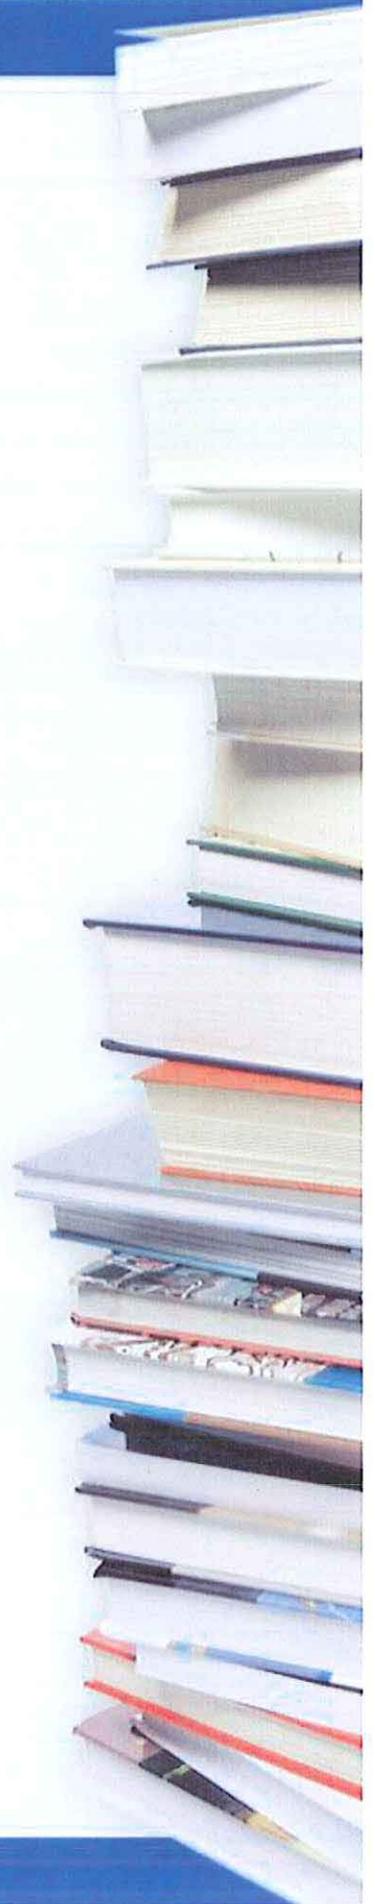

My Trib Rack

My Trib racks are located in the following locations throughout Natrona County:

- Natrona County Public Library
- Elementary schools
- Department of Family Services
- The Boys & Girls Club
- Community Health Center
- YMCA

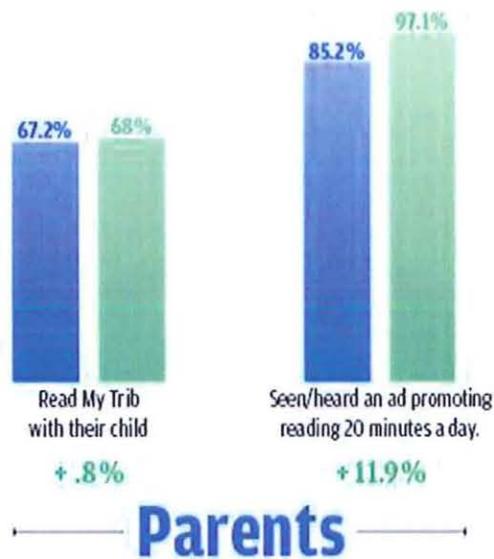

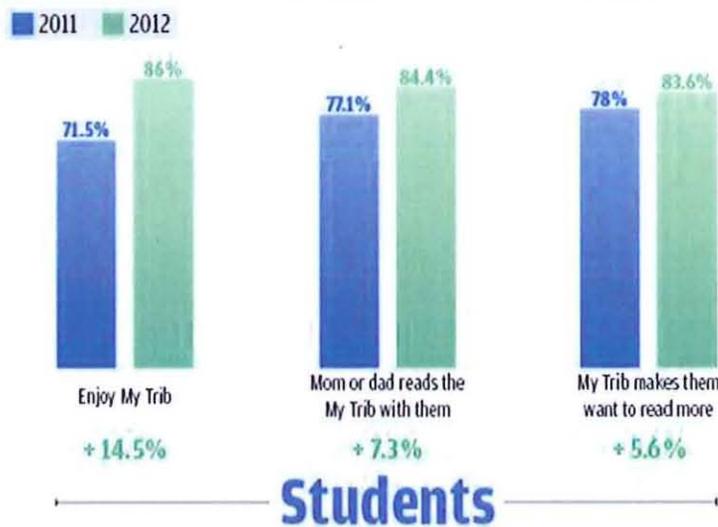

Results

We Read 2012 Survey

In November 2011 and 2012, We Read conducted a survey to gauge the overall results of the marketing efforts and the My Trib publication. The results revealed We Read is creating very positive results in Natrona County. The following is an overview of the results.

2011 Participants
Parents: 698
Students: 1,129

2012 Participants
Parents: 452
Students: 425

Tanya,
 As requested we are providing one hardcopy of the drawings we intend to present at the work session as well as an electronic copy on a CD. The disk contains two file folders - one has all of the drawings combined and the second has them broken into smaller files that might be easier for emailing if your email is limited by file size. We have also provided copies of this submittal to Doug Barrett for distribution to his staff.

Thank you,

GENERAL NOTES

- See Site Survey for existing conditions.
- See Specifications for further information.
- See Civil drawings for site preservation, demolition and salvage; site grading, drainage and wall heights; vehicular pavements, curb cuts and pavement markings; and site utilities.
- All existing site improvements, and plant material to be retained, to be preserved and protected. Area outside Limit of Work line is an area of no site disturbance. Site treatment is integral to the success of this project.
- All existing trees to remain shall receive protection during construction at or outside the tree's critical root zone as shown on drawings and specified in Section 015639.
- Planting areas within Limit of Work line or areas disturbed by construction shall receive site and soil preparation per specifications.
- Layout of site pavement, stairs, walls, furnishings, and light fixtures shall be staked in the field for review and acceptance by Owner's Representative prior to installation. Notify Owner's Representative immediately of any conflicts between layout alignment or dimensioning and field conditions.
- All work shall be plumb and square unless noted otherwise.

SITE PLAN PERMIT LANDSCAPE PLAN NOTES

- See survey for existing conditions.
- See site survey 1 of 4 for the location, type and size of all of existing plant materials. See LS1.01 through LS1.04 for existing plant materials to remain on site.
- See LS1.01 through LS1.04 for proposed plant and other landscape materials.
- Minor changes in the species and plant locations may be made during subsequent design and construction phases. Plant locations shown on the plans are diagrammatic.
- All landscape material shall comply to the minimum size criteria and specifications set forth in the handbook "Building Casper's Urban Forest, a Tree and Shrub Selection and Care Guide."
- Landscape Contractor shall provide adequate and proper care of plant materials and landscape areas within the contract limits for a minimum period of one year (365 days) to ensure healthy, vigorous growth of plant material.
- All planted areas to be irrigated with a fully automatic irrigation system separated into two systems: one irrigation system located west of oak street, and one irrigation system located east of Oak Street.
- Landscape Contractor shall verify the locations of and protect all utilities and structures prior to and during work. damage to utilities and structures shall be repaired by the contractor at the expense of the contractor to the satisfaction of the owner.
- All planted areas to receive soil preparation (including imported topsoil and organic amendments).
- All trees to be located in accordance to Casper Code of Ordinance 12.32.070 :
 - 10' from fireplug or utility pole
 - 30' from intersections per 12.24.040 and 12.24.050
 - 40' min spacing between large trees
 - 20' min spacing between small trees
 - 15' from driveways and alleys
 - 5' lateral feet of underground water line, sewer line, transmission line, or other utility
 - 50' from underground water or sewer line for trees of populus genus
 - 2' from curb or sidewalk for small trees
 - 4' from curb or sidewalk for large trees
- Mulch in all plant beds to be a minimum depth of 3".
- To the maximum extent feasible, topsoil, meeting the definition outlined in the specification, that is removed during construction activities shall be conserved for later use on areas requiring revegetation.
- All landscape construction practices, workmanship and ethics shall be, at a minimum, in accordance with industry standards set forth in the handbook for landscape contractors published by Wyoming landscape contractors association.
- The Contractor shall contact the city to inspect all street tree plantings a the completion of construction, all trees are to have been installed as shown on the landscape plan, approved street tree planting is required before final approval. failure to obtain approval by the city forester for street trees shall result in a hold on the certificate of occupancy.
- Review and approval by the city of casper of any required landscape irrigation system is required prior to issuance of a building permit.
- All landscaping shall be installed or the installation shall be secured with a letter of credit, escrow or performance bond of 125% of the value of the landscape materials and installation prior to the issuance of a certificate of occupancy for the building.

MEMO TO: John C. Patterson, City Manager 
FROM: Fleur Tremel, Assistant to the City Manager 77.
SUBJECT: Community Promotions – Third Round Voting Results

Recommendation:

That Council review the attached voting results for the third round of the Community Promotions process to confirm that they accurately reflect the will of the Council.

Summary:

The City of Casper received thirty-six applications for Community Promotions funding this year. Of those, nineteen were successful in the first and second rounds of voting, so they were moved forward to the third and final round.

Council has now submitted vote sheets for that third round of voting. Those results indicate that \$125,062.02 of Community Promotions funding should be awarded this year, including \$30,188.23 in cash, \$33,218.79 in in-kind services, and \$61,655.00 in facility rentals. As a reminder, groups are required to match 50% of in kind and facilities costs; the totals in this memo represent the entire amount.

	Cash	In Kind	Facilities	Total
Successful First and Second Round Applicant Requests	\$48,048.00	\$33,218.79	\$61,655.00	\$142,921.79
Preliminary Result	\$30,188.23	\$33,218.79	\$61,655.00	\$125,062.02

Council may now review and discuss the results of the third round. If these results are appropriate, then they will be sent forward for formal approval at the Regular Council Session on October 15, 2013.
